THE DEVIL IS IN THE DETAIL AND SHE IS AN ARTWORK...

In *the fool and the devil*, author Brianna Janice explores the pleasures and desires of being female, the pleasure of a lover's company and the desire to live peacefully within this universe.

But the pleasures and desires of being female are equally complex as they are simple and *the fool and the devil* has a darker edge that examines those needs for acceptance at a young age.

Such needs provoke other desires, like a yearning for rebellion and a daringness towards committing sins.

Those mysterious proclivities towards wearing black velvet and wanting to fade away into the shadows.

the fool and the devil inspects the endless and exchanging contrasts of desire... open within a woman's words and shared with you with humility...

A CONVERSATION WITH THE AUTHOR

WHY DID YOU WRITE *A FOOL AND THE DEVIL*? WHAT WERE YOUR INSPIRATIONS?

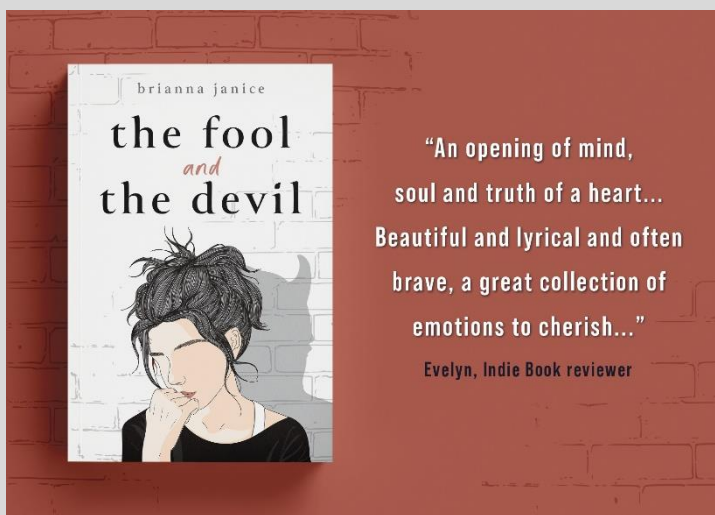

As a young writer, I can relate to young people and especially young women who are my work's target audience, but I have also found that I can relate to older audiences because I remind them of what it's like to be young. I am a girl who has many perspectives on life, I wear many masks to hide the things I have experienced and the pain I have felt. Instead of sharing with people what I was struggling through, writing was my therapy.

My work's relevance is inspiration and connection. This book has descriptions of identity, loss, mental health, maturity, growth, beauty and self-acceptance, and one of the more prominent themes is issues, struggles and ideals that are so pertinent today, especially within the lives of young women. This book is my artwork, I have written it as a way of exposing and reliving my rawest of feelings and emotions and hopefully to share with readers that love poetry just as much as I do.

Sometimes I gain my ideas from music, podcasts, movies, books or moments in history but they often come from my own experiences, struggles, pain, happiness and heartbreak. I analyse my own sense of self and thoughts and gain ideas from that process.
