## **PETER COX**

Peter Cox was born in New Zealand and at the age of 26, moved to Australia in 1973, where he now resides with his wife Trish. They have 3 children and 5 grandchildren.

Peter is a businessman and taxation accountant and holds a bachelor's degree in accounting from Swinburne University. He is a fellow of the Tax Institute in Australia.

He has a unique skillset that has been refined over many years from business and accountancy experience in the commercial and professional arena.

# LIFE'S EQUATION

***This book shows you how to break out of your comfort zone and do something amazing for your future...start now!***

This book is for all who care enough about their future to do something about it as it examines the financial and lifestyle decisions that we make as we journey through life...

*If you had your life again, would you do things differently?*

*Would you gain what you wanted?*

Peter Cox, a seasoned accountant, and advisor explains in real terms how to start thinking beyond the square and dig deep into the network of information where ideas lay waiting within you to create a better future, you just need to know how to find them. This book has helped many people with stepping beyond their own expectations in simple and easy steps that make the process fun and profitable!

Written in easy-to-understand language, it contains a comprehensive blend of information for those ready to accept personal responsibility for their financial future. Whether a teenager, college student, single parent, married with kids, or a seasoned business professional, the book's content was researched and organized to benefit anyone in whatever season of life.

***Who inspires you?*** Tiger Woods, Elon Musk, John Eales, Richie McCaw, Warren Buffet, Paul McCartney, Michael Jackson, Frank Sinatra

***What do you like to do when you're not writing?*** Golf, Piano

***What does your family think of your writing?*** Blown away, they did not know until the book was written.

***What were your inspirations for writing this book?*** I want to help younger people understand that they are responsible for their decisions and that every decision has an outcome. Your brain is remarkable, and you can do or be whatever you want in life. It is up to you. You never stop learning. Be excited by what you do not know and what you can possibly be. If you are not, then you will never reach your capacity. It is never too late to save for your future. and to change your savings model. The ideal set and forget model are to own your own home when you retire, and to top up your super every year to optimize tax incentives. i.e., Salary Sacrifice

***What was the biggest challenge when writing the book?*** To make it interesting and relatable
