

My brain is my best friend
and my brain is friends with my guts!

My guts say to my brain, 'Can you hear that big noise?'
'What noise?' asks my brain.
'Listen,' says my guts.

Lub Dub!

Lub Dub!
Lub Dub!

'Oh!' says my brain. 'That is the big
pump in the body called
the heart!'

'What does the big pump do?'
asks my guts.
